General Information

- Sintered Stone made of 100% minerals
- Contains no resins or petroleum derivatives
- Scratch resistant
- Acid and Alkali resistant
- UV stable, no fading
- Non-porous and stain resistant
- Mold and bacteria resistant
- Heat and frost resistant
- Slabs measure 3365x1500mm,
- Thickness available: 12mm, 20mm, and 30mm
- Fossil - coarse textured surface
- Lithos - finely wrinkled surface
- Vesuvio - smooth and finely textured surface
- Satin - silky sheen finish
- Lux - highly reflective polished surface

Sustainability

- Uses Bio-Care technology giving it the ability to breakdown organic atmospheric particles which deposit on the surface
- Has hydrophilic properties that remove polluting particles from the surface

Applications Include

- Countertops for kitchens, reception areas, sales counters, bathrooms
- Outdoor kitchens and grill areas
- Interior and exterior cladding
- Floors and stairs
- Pools, yachts, spas, and saunas
