Design aesthetically and acoustically winning interior spaces with the infinitely customizable and ecologically sound EchoPanel® acoustic panels and tiles. Take the next step in functional, beautiful, sustainable design.

# HOW TO FIX ACOUSTIC PROBLEMS

Sound bounces off hard surfaces and around large volume spaces to create unwanted reverberation.

EchoPanel baffles capture sound waves, reducing reverberation while providing visual interest

## A tale of two rooms: Designed for Beauty. Designed for Sound.

Adding ceiling baffles to large open spaces helps break up and absorb disruptive noise. Ceiling baffles also help define spaces usage and change the tone from same old to dynamic.

EchoSky Color #151

## QUIET YOUR SPACE WITH ECHOSKY ACOUSTIC BAFFLES.

Design different with the versatile EchoSky acoustic baffle system. Twenty color choices, multiple standard configurations, simple installation and easy customization help you design for better sound control with style.

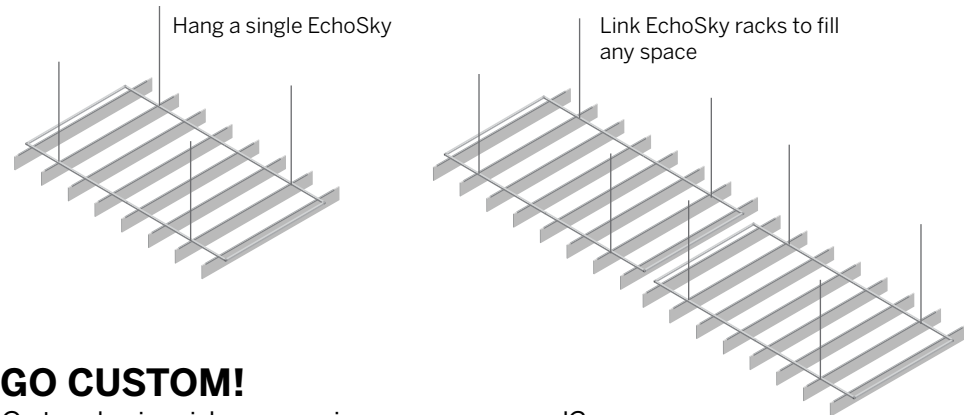

## EASY TO SPECIFY. EASY TO INSTALL.

### EASY SPECIFICATION:

12 standard EchoSky configurations and 20 colors provide a world of design possibilities.

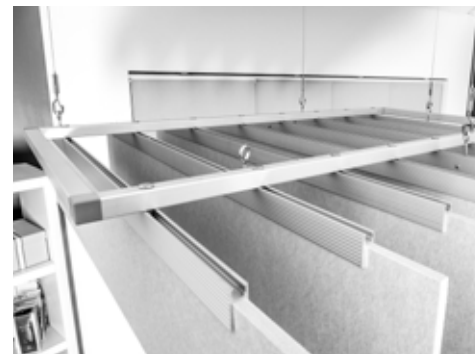

### EASY INSTALLATION:

Modular parts mean simple assembly, easy hanging and reduced cost.

### GO CUSTOM!

Got a design idea or unique space need? EchoSky modular construction means easy customization.

### OVERHEAD BUT NOT OVERHEARD

62% of office workers have reported being negatively affected by acoustic issues.

Adding sound absorbing materials like EchoSky to your spaces can reduce occupant stress and increase productivity.

### RACK

Lightweight, modular rack components provide a stable foundation for EchoPanel baffles.

### CHANNEL

Aluminum channel securely holds baffles.

### BAFFLE

Standard depths:

- 9"
- 11.5"
- Custom sizes & configurations

## MODULAR SYSTEM

QUICKLY HANG ACOUSTIC BAFFLES IN NEARLY ANY CEILING CONDITION

EchoSky Baffle Systems are made from recycled PET and aluminum. Components can be reused or recycled at the end of life. EchoPanel acoustic baffles can help your project gain LEED® green building credits.
