# reSAWN TIMBER co.<sup>TM</sup>

Available through  
**CaraGreen**  
Sustainable Architectural Materials  
www.caragreen.com • 919.929.3009  
info@caragreen.com

## GENERAL INFORMATION

- Solid and engineered construction allows for a variety of material choices without sacrificing quality
  - Engineered options have thick wear layers to ensure durability
- Wide-plank options allow for better material yield and less waste in the manufacturing of the planks
- All materials are sustainably harvested and managed in the US
- Natural oils enhance the inherent grain and color, and can also be used to create stunning colors
- Suitable for **interior applications**, including:
  - Flooring (*excluding some reclaimed options*)
  - Wall cladding
  - Ceiling Cladding
  - Millwork (*reclaimed options only*)

## STANDARD DIMENSIONS

- For most reSAWN Timber Hardwood products:
  - Microbeveled edges and ends
  - Tongue and groove, endmatched milling
  - 3-8" widths generally available upon request
  - 2-10' random lengths standard
  - Specific lengths available upon request
- For some **reclaimed** options (see \*\* options in matrix on the back of this brochure), standard milling, edges, and dimensions are as follows:
  - Square edges
  - S3S (smooth three sides) milling
  - 4-12' random lengths standard
  - Specific lengths available upon request
- Some **European white oak** options are available in Herringbone pattern planks

BRIDGEPORT - at Key West Private Residence

HERITAGE- at Tria Wine Bar, Philadelphia
