Credit + Intent

- MR Storage and Collection of Recyclables**
prerequisite 1

- MR Construction and Demolition Waste Management and Planning**
prerequisite 2

- MR Building Life Cycle Impact Reduction - up to 5 points**
Option 1: Historic Building Reuse
Option 2: Renovation of Abandoned or Blighted Building
Option 3: Building and Material Reuse
Option 4: Whole Building Life Cycle Assessment

- MR Building Product Disclosure and Optimization - Sourcing of Raw Materials - up to 2 points**
Option 1: Raw Material Source and Extraction
Option 2: Leadership Extraction Practices

- MR Building Product Disclosure and Optimization - Environmental Product Declarations - up to 2 points**
Option 1: Environmental Product Declaration (EPD)
Option 2: Multi-attribute Optimization

- MR Building Product Disclosure and Optimization - Material Ingredients - up to 2 points**
Option 1: Material Ingredient Reporting - Min. 20 products that list the chemical inventory of products
Option 2: Material Ingredient Optimization - Min 25% of products
Option 3: Product Manufacturer Supply Chain Optimization

- MR Construction and Demolition Waste Management - up to 2 points**
Option 1: Diversion
Option 2: Reduction of Total Waste

- EQ Low Emitting Materials - up to 2 points**
Option 1: Product Category Calculations
Option 2: Budget Calculation Method

LEED v4 for Interiors

PROJECT TYPES

Building Design + Construction (BD+C)
Interior Design + Construction (ID+C)
Building Operations + Maintenance (O+M)
Neighborhood Development (ND)
Homes
Cities and Communities

CREDIT CATEGORIES

Integrative Process
Location + Transportation
Sustainable Sites
Water Efficiency
Materials + Resources
Indoor Environmental Quality
Innovation
Regional Priority

Materials have their own credit category in the LEEDv4 Standard.

TIPS FOR CHOOSING INTERIOR MATERIALS

- Has life-cycle considerations
- Sustainably sourced
- Durable
- Red-list or toxin-free
- No offgasing
- Healthy end-of-life
- Has transparency documents
