

ELEGANT & ECO-FRIENDLY

TorZo[™] manufactures a unique, elegant and sustainable line of pre-finished flooring products made from agricultural byproducts and recycled wood. TorZo infuses these sustainable materials with an acrylic, creating a very hard and durable flooring material – an ideal option for both residential and commercial applications.

TorZo flooring is available in your choice of planks or tiles. Each is pre-finished with a ceramic-based UV cured finish.

Since the entire TorZo family of products is made from sustainable materials, TorZo flooring can contribute to LEED certification when used in green building projects. Additionally, TorZo flooring contains no added urea formaldehyde. This makes TorZo the ideal product for environmentally conscious builders and designers.

ORIENT FLOORING:

PRODUCT DESCRIPTION:

Solid plank and tile flooring

WEIGHT: 3.0 lbs/sq. ft.

SQUARE FOOTAGE PER BOX (PLANKS):

15 (full boxes only)

STANDARD DIMENSIONS* (PLANKS):

Thickness: 1/2"

Width: 5"

Length: 2', 4', 6' random lengths

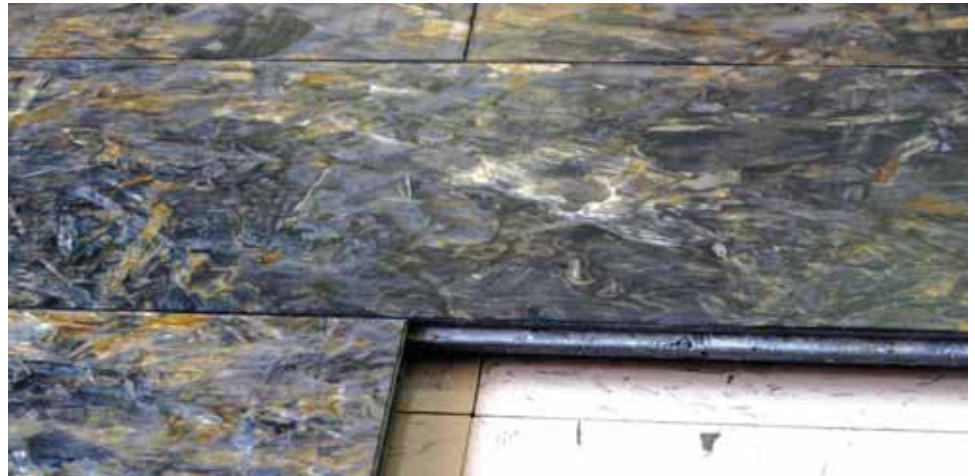

STANDARD DIMENSIONS* (TILES):

Thickness: 1/2"

Width x length: 12" x 12", 12" x 24"

* Note: Custom sizes can be ordered; up-charges may apply.

EDGES: Tongue and grooved with micro bevel

ENDS: End matched tongue and groove – no micro bevel

FINISH: Pre-finished ceramic-based UV cured finish

COEFFICIENT OF FRICTION (AVERAGE): 765 (38°)

JANKA RATING: 4,589 lbs

STABILITY: +/- 0.007% (tested due to humidity change from 50%-80% RH)

TABER ABRASION RESISTANCE (ASTM D-4060):

Wear through (cycles): 10,000
Wear rate (cycles/0.001"): 5,000
