# Organoid® Natural Surfaces ...

## BERGWIESN

alpine-hay from approx. 2,000 m above sea level with 6 edelweiss/m<sup>2</sup>, 20 marguerites/m<sup>2</sup>, petals of arnica, cornflower, heather and rose  
WSPBRG0075 ▲ FVP ● FVS WSPBRG0090 ◆ HPL

## WILDSPITZE MARGERITTA

alpine-hay with 4 marguerites/m<sup>2</sup>  
WSPMAR0075 ▲ FVP ● FVS  
WSPMAR0090 ◆ HPL

## ALMWIESN

Tyrolean alpine-hay with 5 marguerites/m<sup>2</sup> and petals  
WSPALM0075 ▲ FVP ● FVS  
WSPALM0090 ◆ HPL

### Where are the marguerites?

Unfortunately, we cannot fit a marguerite on each small sample. However, our bigger samples are finished with a marguerite or edelweiss depending on the type of surface. We are happy to send you an A5-sized sample. Simply scan the QR code and discover our colourful collection!

## KORNBLUAMA light

loosely spread cornflower petals on white eco-fleece  
KOBBLU2040 ● EVW

## ROASNBLIATN light

loosely spread rose petals on white eco-fleece  
ROABLI2040 ● EVW

fragrant rose petals  
ROABLI0085  
▲ FVP ● FVS ◆ HPL

**special characteristics  
light & medium  
collection**

Due to the density  
of the raw material  
the backing is part  
of the surface design.

natural flax backing  
white eco-fleece  
brown flexi  
golden paper

Ideal for large  
area applications

# ... on various backings

## FVS » Self-adhesive flax backing with self-adhesive film

- direct application on (nearly) any surface
- suitable for backlighting

format: rolls  
width 1,360 mm  
MOQ 1 m<sup>2</sup>

## FVP » Flax backing

100% natural

- breathable
- unbleached
- special lighting effects through backlighting
- processing: like wallpaper (wall-pasting technique) or as laminate (veneer press)

## SKT » Translucent Self-adhesive

natural material applied directly on adhesive film

- direct application for double-sided view, e.g. for glass
- suitable for backlighting

## EVW » Eco-fleece white

recycled cellulose and textile fibres

- STANDARD 100 by OEKO-TEX®
- processing: like wallpaper (wall-pasting technique) or bonding to various surfaces

## FLX » Flexi

thin flexible fleece

- processing: like wood veneer
- no glue penetration
- available on self-adhesive

## BKO/BDN » Flooring

sealed with polyurethane

- glue-down panel on cork
- click panel
- panel size: 1,235 x 305 mm
- object class 32
- with additional sealing object class 33
- abrasion resistance: AC3

## HPL » high pressure laminate laminate board

- size: 3,050 x 1,320 mm
- processing: like conventional laminate
