## ELEMENTAL SURFACES

elementAl repurposes plastic and metal from the post-industrial waste stream and melds them together into a stunning, easily machined surface. elementAl performs well in residential and commercial spaces while offering a seamless solution to the problem of industrial waste. These surfaces tell the story of the need for a more sustainable economy in our offices and our homes. These unique panels manufactured in Buffalo, NY give architects and designers a simple solution to a complex problem: it's elementAl.
